# Plants for Rock Gardens

## Plants for Your Rock-Garden

Here are a dozen collections of extra-good plants for rock-gardens, whether in sun or partial shade. The collections include the very best varieties, and we invite your special attention to Collections AA, BB, and CC, which contain the cream of popular rock-plants. Collections 1B to 9B are equally good varieties, but the plants are smaller and, of course, are offered at a lower price.

### Collection AA Ten Modern Rock-Plants

*Arabis procurrens*. White flower.  
*Carnation allwoodii*. Pale pink, red center.  
*Geranium sanguineum*. Rosy pink.  
*Geum sibiricum*. Bright scarlet.  
*Hypericum polyphyllum*. Golden yellow.  
*Dianthus alpinus*. Deep rose or purple.  
*Silene maritima rosea*. Pink; double.  
*Dicentra eximia*. Fringed Bleeding-Heart.  
*Daphne cneorum*. Pink. See page 3.  
*Anchusa myosotidiflora*. Bright blue.  
One plant (our selection) free.

One plant each of 10 named varieties and one free plant, postpaid, for **\$4**

### Collection BB Plants for Shaded Rock-Gardens

*Campanula carpatica*. Light blue. Height 8".  
*Plumbago larpenae*. Deep blue.  
*Primula acaulis* (Polyanthus). Lemon-yellow.  
*Gentiana andrewsii* (Closed Gentian). Blue.  
*Leontopodium alpinum*. Grayish white.  
*Trollius Europaeus* (Globe Flower). Yellow.  
*Viola cornuta*, Jersey Gem. Violet; fragrant.  
*Mazus rugosus*. Lilac and white. Height 4".  
*Saxifraga cordifolia*. Rose-color.  
*Saxifraga macnabiana*. White spotted red.  
*Statice latifolia* (One plant free). Bluish lavender. Height 1' to 2'.

One plant each of 10 named varieties and one free plant, ppd. for **\$3.50**

### Collection CC Tall-Growing Plants for Large Rock-Gardens

The plants in this Collection are not less than 12 inches tall when in bloom.

*Aquilegia alpina*. Bright blue.  
*Dianthus plumarius*. White to pink.  
*Lavandula vera* (English Lavender).  
*Heuchera* (Alum-root). Hybrid varieties.  
*Lychnis viscaria splendens*. Rose-pink.  
*Potentilla Hybrids* (Cinquefoil). Mixed.  
*Santolina chamaecyparissus*. White foliage.  
*Sedum spectabile* (Stonecrop). Pink.  
*Sedum spectabile*, Brilliant. Rosy crimson.  
*Veronica gentianoides*, True Blue.  
*Stachys lanata* (One plant free).

One plant each of 10 named varieties and one free plant, ppd. for **\$2.75**

### Special Collection 14A HARDY FERNS

10 plants in 6 varieties (our selection) sent postpaid for \$2

### Special Collection 15A HARDY ASTERS

Asters vary greatly in time of flowering, in size of bloom, and in general appearance. This collection of varieties is especially adapted for rock-gardens.

10 Hardy Asters in 6 varieties (our selection) sent postpaid for \$2

### Special Collection 16A HARDY GARDEN LILIES

1 bulb each of 5 varieties (including Regal, see page 3) sent postpaid for \$1.50

### Special Collection 17A SELECTED GLADIOLUS

1 bulb each of 10 different varieties, properly labeled, sent postpaid for \$1.25

### Special Collection 18A SELECTED DAHLIAS

5 Show and 5 Exhibition varieties, all different, properly labeled, sent postpaid for \$1.50

### Special Collection 19A TUBEROUS BEGONIA

One of the most showy plants in our rock-garden. Thrives best in partial shade. Flowers double and single; assorted colors.

10 bulbs, assorted, sent postpaid for \$2  
Plants furnished after June 1, 10 for \$3

### Special Collection 1B SEDUMS

10 plants in 6 varieties, all low-growing, sent postpaid for \$1.25

### Special Collection 2B SEMPERVIVUMS—Hen and Chickens

10 plants in 6 varieties postpaid for \$1.25

### Special Collection 3B SEDUMS and SEMPERVIVUMS

5 plants of each, all different, sent postpaid for \$1.25

### Special Collection 4B MEDIUM-GROWING ROCK-PLANTS

10 plants, all different, for shade or part shade, sent postpaid for \$1.25

### Special Collection 5B LOW-GROWING ROCK-PLANTS

10 plants, all different, for sunny rockery, sent postpaid for \$1.25

### Special Collection 6B GERMAN IRIS

10 plants of named varieties, all different, sent postpaid for \$1.25

### Special Collection 7B DWARF IRIS

10 plants of 6 varieties postpaid for \$1.25.

### Special Collection 8B TRANSPLANTED EVERGREENS

10 plants 6 inches high, all different, sent postpaid for \$1.25

### Special Collection 14 OXYGENATING PLANTS

10 plants for Aquarium, assorted, postpaid, \$1.10.

### Special Collection 15B HARDY CHRYSANTHEMUM

Will supply great quantities of bloom from late September until heavy frosts.

10 plants in 6 varieties postpaid for \$1.50.

### Special Collection 16B DELPHINIUMS—Hardy Larkspur

10 plants, Gold Medal Hybrids, sent postpaid for \$1.50

### Special Collection 17B HEMEROCALLIS—Day Lily

10 plants in 6 varieties (our selection) sent postpaid for \$1.50

### Special Collection 20B HARDY VIOLAS

10 plants in not less than 6 varieties (our selection), not labeled, postpaid for \$1.50.

## Visit Our Nursery

You will enjoy a visit to our Nursery. To look over our splendid display of evergreens, shrubs, and plants will alone repay for the trip, but you will find numberless other points of interest. The vast acreage occupied by the Nursery and Mr. Buskirk's residence is an array of naturalistic beauty. Mr. A. S. Buskirk started the Nurseries a generation ago. He has watched over and directed the expansion of the organization, gleaned a wealth of ideas and experience.

First, let us take a trip to the Rock-Garden. A gently sloping hillside provides the scene. Native rocks, with clinging moss, and small stones are laid into easy steps from base to top. Terraces appear here and there, where you may stop and study the plants and enjoy the unusual scene.

This Rock-Garden will never be completed, for each year brings new plants that we want to try. So you will always find something of interest in the Rock-Garden. It contains a great variety of evergreens, shade-plants, sun-plants, wall-plants, those for steps, etc., making a beautiful sight the whole year.

More than fifty pools are in our gardens, all filled with waterlilies and aquatic plants. Some of these pools contain fancy fish of various kinds.

Near the garage you will find a cage of love-birds, billing and cooing; a little farther on, a cage of fancy pigeons; and still farther on, several cages of beautiful pheasants in varieties, showing their lovely coloring. The gorgeous peacock is lord over all, since he has full range of the grounds. Neither can we forget the pair of swans as they paddle all day long in their individual pool at the rear of the lawn.

## The Rock-Plants in This Picture

Will give you an immense amount of pleasure from spring to fall. Foliage, flowers, colors—everything except the rocks needed is in the collection of plants here listed.

14 plants in all, postpaid **\$3.25**

## New and Novel Plants for Rock-Gardens

To assist our friends in attaining the most suitable plants for rock-gardens, we have prepared the various collections shown on this folder. Because of the limited space, we are permitted to give brief descriptions only. These descriptions cover, however, the essential points of color, time of blooming, and height of plant. Because of our large facilities for producing plants, and the quantity that will be absorbed by these various collections, we are able to make unusually low prices for spring and early summer shipment.

### Special Collection 1A

#### Distinctive Rock-Plants

Ajuga reptans rubra. Dark purplish blue. Height, 6 to 8 inches.  
Arabis alpina. Pure white. Height, 6 to 8 inches.  
Arenaria grandiflora. Pure white. Height, 4 to 6 inches.  
Armeria maritima. Pale pink flowers in May and June. Foliage evergreen. Height, 4 to 6 inches.  
Hardy Aster (A. alpinus albus). White flowers in May and June. Height, 6 to 8 inches.  
Hardy Aster, Mauve Cushion. Light mauve flowers in October and November. Height, 9 inches; 2 feet or more spread.  
Cerastium tomentosum. Silvery foliage and white flowers in June. Dwarf.  
Dianthus deltoides. A creeping plant with deep red flowers.  
Myosotis palustris (Forget-me-not). Pale blue flowers in May and June. Height, 8 inches.  
Nepeta mussini. Lavender. Height, 12 to 18 inches.  
Phlox subulata (Moss Pink). Small pink flowers in May and June. Height, 4 inches.  
Santolina chamaecyparissus. Silvery white foliage remaining the year around. Height, 12 inches.

One plant each of Collection 1A **\$3** POST-PAID  
(12 plants in all), sent by mail

### Special Collection 2A

#### Sedums and Sempervivums

Sedum acre. A low-growing plant, with light green leaves and masses of yellow flowers in May and June, suited to covering ledges. Height, 4 inches.  
Sedum glaucum. An excellent dwarf variety with light grayish foliage.  
Sedum lydium. Bright green foliage, changing to reddish bronze in late summer. Height, 4 inches.  
Sedum sarmentosum. Flowers yellow. Slender, prostrate shoots with small leaves in whorls. Height, 4 inches.  
Sedum stoloniferum coccineum. Rosy crimson flowers in July and August. Height, 6 inches.  
Sedum stoloniferum. Large clusters of pink flowers in June and July, borne on trailing stems. Height, 6 inches.  
Sempervivum doellianum. Flowers red. Small light green rosettes, with the tips of inner leaves connected by fine threads.  
Sempervivum fimbriatum. Flowers red. Rosettes reddish at the base and fringed with hair at the top. Height, 6 to 10 inches.  
Sempervivum soboliferum. Flowers yellow, carried above rosettes of silver and bronze foliage. Height, 6 to 9 inches.  
Sempervivum tectorum. Rosettes 3 inches or more across. Leaves are longer and thicker than the other varieties, and tipped with red.

One plant each of Collection 2A **\$2.50** POSTPAID  
(10 plants in all), sent by mail

Collections on this page will be sent post-paid unless otherwise noted  
"Express collect" groups are extra-heavy field-grown clumps, too large for mail

### Special Collection 4A

#### High-Class German Iris

Brooksiana. The effect of the bloom is light pink.  
Monsignor. S. and F. pale violet; F. overlaid with deep violet-purple.  
Lohengrin. A rich, silvery lilac which shows a delightful pink tone.  
Flavescens. S. and F. delicate yellow. Flowers large, sweetly scented. Desirable for massing and for cutting. Height, 30 inches.  
Harlequin. Pale yellow with light purple markings. Dwarf.  
King Edward. Reddish purple.  
Leonidas. Lavender to deep violet. S. dome shaped; F. slightly incurved and ruffled at top.  
Mrs. Horace Darwin. White with bluish undertone; beard white with yellow top.  
Amos. S. bright blue; F. deep violet-purple. Flowers very large.  
Princess Victoria Louise. S. sulphur-yellow; F. rich plum, bordered cream. Early blooming and desirable in landscape work. Height, 24 inches.  
Quaker Lady. S. smoky lavender with yellow shading; F. ageratum-blue and old-gold; yellow stigmas and beard. Height, 38 inches.  
La Neige. White with a white and yellow beard, giving the flower a yellow reflex.

One plant of each (12 plants **\$2** in all), sent postpaid

### Special Collection 5A

#### Dwarf Irises FOR ROCK-GARDENS

Our selection of varieties to include 4 yellow, 4 blue, and 4 white Irises.

Complete Collection of 12 plants **\$1.50** (4 of each color), sent postpaid

1 plant each of 10 good varieties, **\$3.25** our selection, sent postpaid

### Special Collection 7A

#### Ornamental Grasses

Eulalia gracillima univittata (Japanese Rush). Foliage bright green with silvery midrib.  
Eulalia japonica variegata. Green foliage striped with white; stems marked with pink or yellow.  
Eulalia japonica zebrina. Similar to the preceding but with yellow markings across the leaf.  
Festuca glauca (Blue Fescue). Blue-green, tufted foliage. Useful in a rock-garden and for perennial borders.

Phalaris arundinacea variegata (Variegated Ribbon Grass). Height, 12 to 15 inches.

One plant each of our Collection 7A (5 plants in all) sent by mail **\$1.25** POST-PAID

### Special Collection 10A

#### Scavengers

FOR SMALL POOL OR AQUARIUM

1 Geographic Turtle  
6 Snails—3 varieties  
2 Salamanders  
2 Clams

ALL FOR **\$1.50** POST-PAID

### Special Collection 8A

#### Evergreens for Rock-Gardens

These small evergreen trees, varying in height from 4 to 6 inches, are grown in quantity for rock-garden work.  
American Arborvitae (Thuja occidentalis). Foliage green on upper side, and yellowish beneath.  
Balsam Fir (Abies balsamea). Carries the fragrance of the Canadian woods.  
Austrian Pine (Pinus nigra austriaca). Stiff, dark green needles in pairs.  
Mugho Pine (P. montana mugbus). Low growing and spreading.  
Swiss Mountain Pine (P. montana). Dull green.  
Red Pine (P. resinosa). Bright green needles in pairs.  
White Pine (P. strobus). Native live needle Pine.  
Blue Spruce (Picea pungens glauca). Bluish foliage.  
Norway Spruce (P. excelsa). The familiar "Christmas tree Spruce."  
White Spruce (P. canadensis).

One plant each (10 trees 4 to 6 inches high) sent postpaid for **\$1.25**

Japanese Dish Gardens. This collection of small evergreens is especially for the popular dish gardens. The trees are taken up without soil, but are packed in damp moss so that freshness is retained.

Two blooming size plants **\$1.25**, postpaid  
Ten plants for **\$5** (express not prepaid)

All collections sent postpaid unless otherwise stated

## Sempervivum · Houseleek

An interesting family of plants which are used freely in rock-gardens. All varieties are evergreen, and add to the beauty of the garden in winter. The plants are increased by rosettes sent out by the parent plants; these small specimens surrounding the larger plant are extremely attractive.

25 cts. each, \$2 for 10, \$15 per 100; large plants, 50 cts. each  
Small plants, \$3 for 25, \$10 per 100

- Sempervivum alberti*. Medium-sized rosettes; pointed leaves. Flowers rose-red. Height, 8 in.  
*S. alpinum*. Flowers purplish. Rosettes 2 to 3 inches in diameter.  
*S. arachnoideum* (Spiderweb Houseleek). Tips of the leaves are connected by silvery threads. Flowers bright red.  
*S. arachnoideum tomentosum*. Numerous red flowers and flat white rosettes.  
*S. atropurpureum velosum*. Large, reddish green foliage. A pleasing variety.  
*S. brauni*. Flowers red. Bronze-green leaves turning to red in the fall.  
*S. calcareum*. Flowers red. Foliage solid, thick, and closely packed. Height, 3 in.  
*S. ciliatum*. Green foliage in small rosettes.  
*S. cinereascens*. Bronze foliage. Close and compact growing.  
*S. doellianum*. Flowers red. Small light green rosettes with the tips of the inner leaves connected by fine threads.  
*S. fauconnetii*. Leaves deep green, turning to bronze in the fall.  
*S. fimbriatum* (Fringed Houseleek). Rosettes reddish at the base and fringed with hair at the tip. Flowers red. Height, 6 to 10 in.  
*S. funcki*. Marked by bright red stems connected with emerald-green rosettes about 2 inches across.  
*S. glaucum*. Flowers vary from pale to bright red.

### Special Collection 18B HARDY PHLOX

Low-growing plants for rock-gardens.  
10 plants in 5 varieties (our \$1.50 selection) sent postpaid for

- Sempervivum globiferum* (Globe Houseleek). Yellow. Rosettes 2 to 3 inches across, with shorter leaves than other varieties. New rosettes are on stems from 1½ to 3 in. long.  
*S. hirtum*. Small rosettes tinged with red, and covered with short hairs.  
*S. mettenianum*. Flowers light rose. Rosettes 1¼ to 2 inches across, flattened.  
*S. montanum*. Compact rosettes, containing from 60 to 80 leaves, tinted brown on tips. Flowers red.  
*S. pulchellum*. Foliage in small rosettes.  
*S. soboliferum* (Men-and-Chickens). Flowers yellow, carried above rosettes of silver and bronze foliage. Height, 6 to 9 in.  
*S. tectorum* (Roof Houseleek). Rosettes are 3 inches or more across. The leaves are longer and thicker than the other varieties and are tipped with red.  
*S. tectorum atrovioleaceum*. Flowers purple or violet.  
*S. triste*. Lower part of the foliage is dull green and the upper part light brown. The flowers are bright red and the rosettes from 2 to 3 inches across.

### SEMPERVIVUM SPECIAL

25 plants in 5 varieties, our selection, for \$4  
100 plants in 10 varieties, our selection, for \$12

### Special Collection 19B HARDY PHLOX

Tall varieties for garden or border.  
10 plants in 10 varieties sent \$2 postpaid for

The plants listed on this Special Folder can be shipped practically all summer, and planted successfully any time during the heated term, provided they are given ample moisture until established.

## Potted Evergreens for Rock-Gardens

These evergreens have been growing in pots for a year and longer. The pots are full of roots and are all ready to make a good growth this spring. Many of them will double in growth the first three months. Just knock them out of the pot and crowd them into the crevices in the rock-garden, or they can be put out in the garden and grown for a year or two for foundation planting. We can supply all of these varieties in large sizes. Therefore, we are listing the small sizes at a price within reach of everyone.

Prices of special Potted Evergreens, 35 cts. each,  
\$3 for 10, \$25 per 100

### Juniperus · Juniper

The dwarf varieties are especially useful for covering banks and rough grounds, while the upright sorts are required in landscape work to give height to the general planting.

- Juniperus chinensis pfitzeriana* (Pfitzer Juniper). Bluish green foliage. Useful in all forms of planting.  
*J. communis* (Common Juniper). Foliage turns to copper-bronze in winter. Suited to rockeries and natural plantings. Height, 3 to 4 ft.  
*J. horizontalis douglasi* (Waukegan Juniper). The foliage is a soft blue in spring and early summer, gradually changing to rich purple in autumn. Plant rarely over 10 inches in height.

### Pinus · Pine

- Pinus montana mughus* (Mugho Pine). Deep green foliage. A useful, low-growing evergreen for rockwork or lawn decoration.

### Retinospora · False Cypress

- Distinctive because of its slender and fern-like foliage.  
*Retinospora pisifera filifera* (Thread Cypress). Foliage long and much like strings, drooping from all sides.  
*R. pisifera plumosa* (Plume Cypress). Finely cut grayish green foliage of a feathery appearance. Grows in a pyramidal form and should be sheared in spring.

### Thuja · Arborvitae

- Always popular for group plantings and for formal specimens. Trees thrive best when exposed to full sun.  
*Thuja occidentalis* (American Arborvitae). Pyramidal in form, densely covered with bright green foliage from the ground up.  
*T. occidentalis ellwangeriana* (Tom Thumb Arborvitae). Low-growing and compact.  
*T. occidentalis hoveyi* (Hovey Arborvitae). Low-growing; dense.  
*T. occidentalis sibirica* (Siberian Arborvitae). Dark green foliage.

## Plants of Annuals

From selected seed we grow great quantities of annuals. These will be found most useful for filling in vacant spaces in the garden and for use in rock-gardens when small perennials are planted. By the use of annuals you will secure color very soon after the plants are placed in position. These annuals will be ready for shipment after May 15.

*Petunias*. Assorted colors.  
*Lantana*. Assorted colors.  
*Verbenas*. Assorted colors.  
*Portulaca*. Assorted colors.

*Pansies*. Assorted colors.  
*Heliotrope*. Blue.  
*Sweet Alyssum*. White.  
*Trailing Coleus*.

Postpaid, \$1.25 per doz.

### Special Collecton 21B—NATIVE WILD FLOWERS

This Collection is especially suited for a wild garden or rock-garden. The plants will include Hepatica, Bloodroot, Trillium, Trailing Arbutus, Iris cristata, and others. 10 plants, \$1.75 all different, sent postpaid for

BUSKIRK'S INDEPENDENCE NURSERIES, INDEPENDENCE, OHIO
